MIXED SEEDLINGS FROM FISHER FLOWERS HYBRIDS PER DOZEN \$ 2.50

Postage paid on orders of \$ 2.00

1. The first part of the report deals with the general situation of the country and the progress of the war. It is a very interesting and informative account of the events of the year.

2. The second part of the report deals with the military operations of the year. It is a very detailed and accurate account of the campaigns and battles of the year.

3. The third part of the report deals with the political and social conditions of the country. It is a very thorough and well-informed account of the state of the nation.

4. The fourth part of the report deals with the economic conditions of the country. It is a very clear and concise account of the state of the economy.

5. The fifth part of the report deals with the foreign relations of the country. It is a very well-written and interesting account of the country's relations with other nations.

UNITED STATES DEPARTMENT OF AGRICULTURE
BUREAU OF PLANT INDUSTRY
WASHINGTON

DIVISION OF
FRUIT AND VEGETABLE CROPS AND DISEASES

February 8, 1940.

The Proprietor,
Fisher Flowers,
Germantown, Tennessee.

Dear Sir:

Continuing an arrangement of many years standing, this Division is cooperating with the Department Library in the upbuilding of the Department's collection of the catalogs and other trade lists issued by nurserymen and seedsmen. Every catalog or list received is shelf-listed and becomes a permanent part of the Library. The collection now numbers more than 63,000 items. As a student's and research worker's collection it is invaluable in investigations concerning the history, nomenclature, characteristics, and distribution of varieties. As a buyer's source of information it is in constant use in answering inquiries as to where plant material may be obtained and regarding varieties being introduced to the trade. The collection as a whole is available to the public for reference use, and the information in it is made readily accessible by means of indexes.

In order that this collection may be kept up to date and as complete as possible, we wish to obtain all trade catalogs and lists of fruits, vegetables, and ornamentals as issued. To this end will you kindly send us your catalog, price lists or other similar material of the current year? It will also be appreciated if you will place our address (Division of Fruit and Vegetable Crops and Diseases, Bureau of Plant Industry, U. S. Department of Agriculture, Washington, D. C.) on your permanent mailing list to receive your annual catalog and other publications as issued.

We enclose an addressed label for your use in sending your publications.

Very truly yours,

H. P. Gould,
Principal Horticulturist in Charge.

Encl.

*This is the only list I have printed. My nursery sales are mostly local to Memphis + suburbs
